

CAREER OPPORTUNITIES

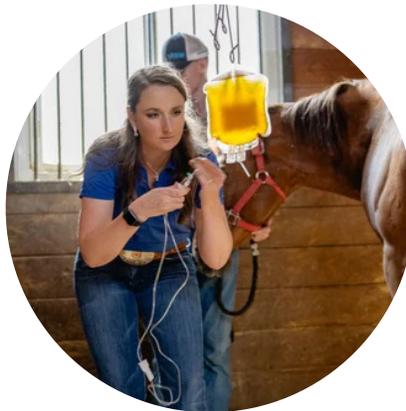

Internship and Externship Programs

Equine Sports Medicine

JOIN
OUR
TEAM!

Equine Sports Medicine was founded with the goal of providing the **highest quality care to equine athletes**. Keeping that tradition going is still the purpose of this growing business, and we aim to educate interns and externs in the tradition of dedication to the performance horse.

Close **mentorship** is available throughout the entire internship. Our four-doctor team includes two board-certified **sports medicine specialists** as well as a residency-trained **surgeon**, providing the unique opportunity to learn from our decades of specialized knowledge.

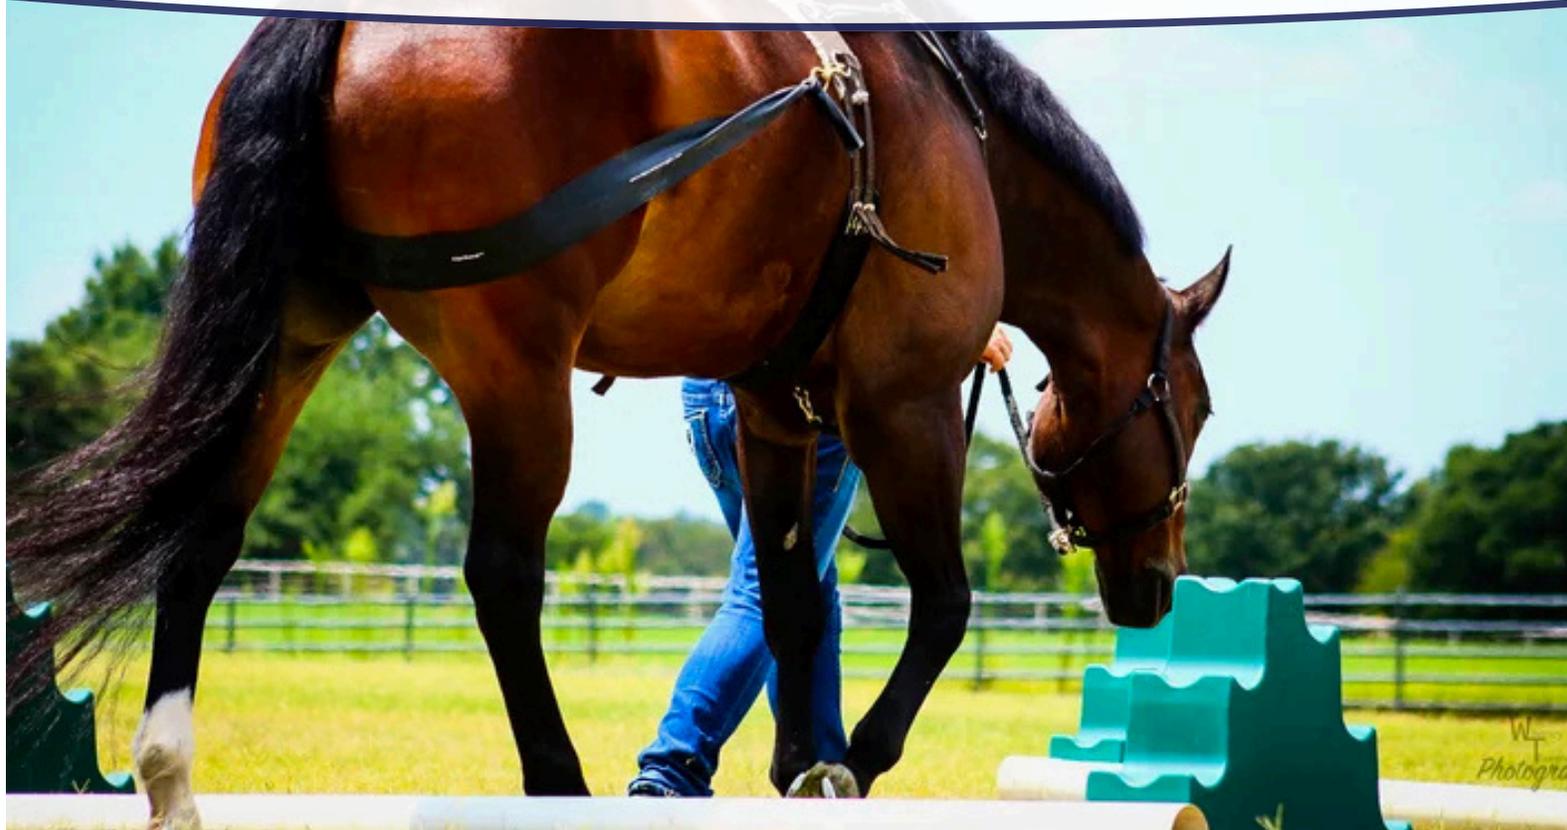

Interns will gain exposure to **comprehensive diagnostics and treatment** of the performance horse in addition to **specialized rehabilitation** utilizing state-of-the-art modalities under custom prescription.

 ALTANO

DEDICATED TO TREATING THE PERFORMANCE HORSE

At **Equine Sports Medicine**, our mission is simple: to deliver elite, performance-driven equine care tailored to your horse and your goals. From comprehensive diagnostics and advanced treatment at our main clinic in Pilot Point, TX to specialized rehabilitation at our Texas Rehab Division in Whitesboro and our Arizona Rehab Division in Scottsdale, ESM provides a seamless, results-focused approach to equine sports medicine.

Beyond our brick-and-mortar locations, our innovative Mobile Division operates fully equipped veterinary semis, true clinics on wheels, bringing consistent, experienced care directly to major sanctioned western performance shows nationwide.

Internship Requirements: Internships are offered at our main clinic in Pilot Point. Please submit a letter of intent, Curriculum Vitae, and three references to info@equine-sportsmedicine.com.

Externship Requirements: Externships are offered at our main clinic in Pilot Point. Rehab externships can be accommodated for applicants with strong horse handling skills and a letter of recommendation demonstrating commitment to advanced interest in the specialty.

Please submit a letter of intent, Curriculum Vitae, and three references to info@equine-sportsmedicine.com.

Interns receive **close mentorship** and **specialized training** in order to complete the year equipped with the **education and skills** to enter private practice or residency.
